This discussion includes certain statements that may be deemed “forward-looking statements”. All statements in this discussion, other than statements of historical facts, that address exploration, drilling, exploration activities and events or developments that Vulcan Minerals Inc. (the “Company”) expects are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in the forward-looking statements include market prices, exploration and exploration successes, continued availability of capital and financing and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and those actual results or developments may differ materially from those projected in the forward-looking statements.

INTRODUCTION

The Interim Condensed Consolidated Financial Statements and comparative information have been prepared in Canadian dollars and in accordance with International Accounting Standard 34, “Interim Financial Reporting”, as issued by the International Accounting Standards Board.

General Business

The Company is engaged in petroleum and natural gas and mineral exploration on properties in Newfoundland and Labrador. The Company’s efforts have focused on exploring these properties. The Company is a pure exploration venture and has no proven petroleum or mineral reserves.

The MDA should be read in conjunction with the consolidated financial statements for the period ended September 30, 2012 and accompanying notes.

DATE

The date of this MDA is November 22, 2012.

OVERALL PERFORMANCE

For the period ended September 30, 2012, total assets decreased to \$11,451,883 (2011 - \$14,511,787) reflecting a decrease in petroleum and natural gas exploration and evaluation assets from \$10,286,233 to \$4,301,235 (as a result of the sale and write-down of assets during Q2 2012) and a decrease in investments (shares in public companies - see Financial Instruments and Other Instruments) offset by an increase in cash from \$2,993,950 to \$5,719,527. Current liabilities related to normal trade payables and current exploration activities decreased to \$732,465 (2011 - \$960,690). Other accrued liabilities relate to premiums on flow-through monies to be spent; the amount accrued for 2012 is \$Nil (2011 - \$70,363). The Company had revenue increases related to a gain on the sale of the offshore Labrador working interest of \$1,249,551; interest income of \$33,568 was higher than the prior year (2011 - \$27,741) due to increased cash balances. Deposits increased due to the reclassification of some deposits related to petroleum and natural from exploration and evaluation assets to deposits held. General and administrative expenses were higher for the period ended September 30, 2012 (\$641,597) compared to 2011 (\$496,220) and include the following material components:

General & Admin. Expenses Include:	Three Months Ended Sept 30			Nine Months Ended Sept 30		
	2012	2011	Change	2012	2011	Change
	\$	\$	%	\$	\$	%
Office	30,021	(57,009)	153%	55,123	(286,880)	119%
Mgmt Fees / Admin / Subcontract	149,897	163,504	-8%	419,647	596,221	-30%
Transfer Agent & Professional Fees	64,065	80,492	-20%	134,620	151,482	-11%
Travel & Accommodation	13,357	13,101	2%	32,207	35,397	-9%

Although actual office expenses were fairly consistent year over year, reimbursements of G&A in 2011 were higher as personnel spent less time during 2012 on joint venture projects. Management and subcontract fees decreased in 2012 as a result of a decrease in personnel. Professional fees were higher in 2011 as a result of professional fees relating to corporate work. Travel and accommodation was slightly lower in 2012. There was a net loss for the period of \$856,258 compared to a net loss of \$886,640 in 2011. Net loss was lower in 2012 as a result of other income of \$1,249,551, decreased stock based compensation expenses during 2012 of \$60,261 (2011-\$182,980), and a deferred income tax recovery of \$831,338 versus an expense in 2011 of \$90,494 offset by the write-off of petroleum and natural gas assets of \$2,216,303 and higher G&A per above.

SELECTED ANNUAL INFORMATION

Refer to Form 51-102F for the year ended December 31, 2011.

RESULTS OF OPERATIONS

Western Newfoundland-Petroleum (Onshore)

Bay St. George

Effective May 1, 2012, the Company holds a 2.0% gross overriding royalty in three petroleum permits in the Bay St. George area, onshore western Newfoundland. Pursuant to a joint venture, the Company previously operated and explored these properties accumulating a database of geophysical and geological data and drilling eleven wildcat wells in this unexplored area. There have been two gas discoveries as well as a shallow oil discovery (Flat Bay) on the permits. These discoveries are unconventional because of tight reservoir conditions requiring significant expenditures to evaluate their commerciality. These expenditures were deemed to be beyond the ability of the Company to pursue and as a result the Company elected to covert its 50% working interest to a royalty position enabling the Company to share any future production without any operational risks or costs.

The operator, Investcan Energy Corporation (“Investcan”) (former 50% working interest owner), is currently drilling a well at Flat Bay towards evaluating the commerciality of that oil discovery.

Parsons Pond

The Parsons Pond permits are situated on the west side of the northern peninsula in western Newfoundland. This is a frontier onshore petroleum exploration area. The Company has held non-operating minority interests in this area for several years.

On August 6, 2009, Nalcor Energy acquired an average 67% working interest and operatorship in the permits from a private company. Nalcor Energy is a provincial (Newfoundland and Labrador) crown corporation active in hydro-electric generation and oil and gas development. The first well, Seamus #1, on exploration permit 03-103 reached a total depth of 3,160 metres in late May 2010 and is currently suspended. The Company owns a 10% working interest in EP 03-103.

The second well, Finnegan #1, on exploration permit 03-102 (where the Company owns a 7.39% working interest) reached a total depth of 3,130 metres in early December 2010. The well encountered natural gas and is currently suspended. These wells were the first deep wells to be drilled in this part of the Cambrian-Ordovician aged Anticosti Basin in western Newfoundland. Based on the drill results and the Company's evaluation of the prospectivity of the permits, the Company has decided to relinquish all of its working interest in both permits to the operator and has entered into an agreement to do so, subject to regulatory approval.

Labrador Offshore

Effective May 15, 2012, the Company sold its 30% working interest in the Labrador Offshore exploration licence 1107 ("EL 1107") to Investcan for a cash payment of \$1,750,000 and "success" payments of \$500,000 upon the spudding of a well on EL 1107 or the sale by Investcan of its total interest in the licence whichever comes first, and a further \$500,000 upon the issuance of any significant discovery licence contained within the exploration licence. The Company had invested \$500,449 in respect to this project prior to the sale.

EL 1107 covers 236,525 hectares (584,000 acres) of the Hopedale Basin on the Labrador continental shelf and was acquired in September 2008 with Investcan. An exploration licence confers the right to explore for petroleum for six years (Period I) with a possible additional period of three years.

Western Newfoundland Offshore

Through its interests in NWest Energy Corp. ("NWest"), the Company has exposure to the exploration potential of offshore western Newfoundland. The Company was a founding shareholder of NWest in 2006 and currently owns approximately 19% of its outstanding shares.

In January 2012, NWest announced it had entered into an agreement with Shoal Point Energy Ltd. ("Shoal Pt") in which Shoal Pt will acquire 100% working interest in licence EL 1079R. This transaction was approved at NWest's annual and special meeting of shareholders on March 21, 2012. This transaction provides NWest shareholders with ongoing exposure to the offshore Green Point tight oil play in western Newfoundland on EL 1079R. In March 2012, NWest further announced that it has entered into a non-binding letter of intent with Caribe Oil & Gas Ltd. ("Caribe"), a private Alberta corporation focused on exploration and development of oil and gas properties in Argentina, pursuant to which NWest would amalgamate with Caribe to form a new company. Due to unfavorable equity market conditions, NWest announced on April 25, 2012 that the proposed transaction was cancelled.

Mineral Properties

TL Nickel-Copper-PGM

The TL Nickel-Copper-Platinum group element property in Labrador is situated approximately 80 km northwest of the Voisey's Bay world-class nickel-copper-cobalt mine. The property was optioned to Nortec Minerals Corp. ("Nortec") in 2003. Nortec has spent sufficient funds to keep the property in good standing since that time. An airborne geophysical survey was completed as of May 21, 2008 by Geotech using the VTEM system. A drilling program was carried out on the property during the summer of 2008 with approximately 1,960 metres drilled. To date Nortec has earned 51% working interest in the property. Significant drill intersections of mineralization were encountered including 14 metres of 1.02% Nickel, 0.51% Copper, and 0.03% Cobalt. Full assay results are available on the Company's website at www.vulcanminerals.ca. The Company and Nortec are investigating avenues to resume exploration on the property.

Flat Bay Potash/Salt

Effective August 17, 2012, the Company holds a 3.0% net production royalty in the mineral rights over a portion of the northern Bay St. George Basin (approximately 89,884 acres) now owned by Red Moon Potash Inc. (a subsidiary of the Company). The Bay St. George area is part of the larger Maritimes Basin which is a significant producer of salt and potash, including the Sussex mine operated and under current expansion by the Potash Corporation of Saskatchewan in New Brunswick.

In 2002, the Company drilled the Captain Cook #1 well which discovered a 165-meter thick section of evaporites consisting of halite (salt) and a potentially significant potash zone. Analysis of the core indicated grades varying from 4.44% - 20.40% K₂O (potassium oxide). In 2004, the Company drilled the Flat Bay #2 well, which intersected approximately 200 metres of salt approximately 2 km from Captain Cook. Geological analysis suggests that these discoveries are connected and that a potentially significant salt/potash resource exists in the area. In late 2011, the Company carried out a high resolution airborne gravity survey (Fugro Surveys) over the prospective lands for potash and salt to further enhance the geologic understanding of the deposits and assist with drill target prioritization.

On July 25, 2012, the shareholders of the Company approved a corporate re-organization whereby the Company spun-out these mineral exploration assets in the Bay St. George basin into a separate publicly traded subsidiary company, Red Moon Potash Inc. ("Red Moon"). Red Moon was listed for trading on the TSX Venture Exchange on August 17, 2012. The Company currently holds approximately 58% of the issued and outstanding shares of Red Moon. Red Moon is planning a drill program for potash and salt in 2013.

Plans for 2012

With the conversion of the Company's 50% working interest in the Bay St. George onshore petroleum permits to a 2.0% royalty (see Bay St. George above) and the sale of its offshore Labrador interest (see Labrador Offshore above), the Company is pursuing other opportunities where it can utilize its petroleum/mineral exploration expertise to add value to the Company. The Company has a relatively strong cash position and no debt which will be advantageous in acquiring new projects in the currently depressed equity markets for resource companies.

The Company is undertaking a full review and integration of all geologic, geophysical and drilling data on the TL Nickel property towards formulating a new exploration program.

The Company continues to integrate all the data in the Bay St. George basin towards assisting Red Moon with its future drilling program for potash/salt.

SUMMARY OF QUARTERLY RESULTS

Quarter	Total Revenue	Net Income (Loss)	Net Income (Loss) per share
	\$	\$	\$
September 30, 2012	16,725	337,872	0.01
June 30, 2012	1,259,658	(1,139,850)	(0.02)
March 31, 2012	6,736	(54,280)	-
December 31, 2011	7,993	(848,977)	(0.01)
September 30, 2011	8,864	(394,083)	(0.01)
June 30, 2011	9,495	(152,235)	-
March 31, 2011	9,382	(340,322)	(0.01)
December 31, 2010	8,874	(493,986)	(0.01)

Total revenues quarter over quarter is limited to interest income earned every period except for June 30, 2012 in which \$1,249,551 was received as a gain on the sale of the offshore Labrador licence. Net loss was greater for the quarter ended June 30, 2012 as a result of write-offs of PNG exploration and evaluation assets and for the year ended December 31, 2011 as a result of write-offs of PNG exploration and mineral deposits and higher stock based compensation and G&A costs. Net loss for December 31, 2010 was higher as a result of an increase to deferred income taxes relating to the premiums recorded on the issuance of flow-through shares.

LIQUIDITY

At period-end, the Company had current assets of \$5,738,315 of which \$5,719,527 is cash and cash equivalents. This cash is readily available and is not subject to subprime debt issues nor asset backed commercial debt.

The Company has no long-term debt and as such is not sensitive to interest rate fluctuation on debt instruments. The Company has no unpaid accrued or contingent liabilities that could materially affect its financial position except for the item disclosed in the notes to the consolidated financial statements. The Company was required to post refundable security deposits with the Government of Newfoundland and Labrador for drilling and other petroleum operations in Western Newfoundland. The Company's cash and cash equivalents are held in bank accounts with no exposure to equity market fluctuations.

Currently, the Company has no production revenue from petroleum and natural gas or minerals. Further issuance of equity and joint venturing will be required to carry on the business of the Company in the longer term. Because of volatility in the equity and commodity markets there is no guarantee either source of funding will be available in the future.

CAPITAL RESOURCES

The Company carries out exploration on petroleum permits and mineral licenses in Newfoundland and Labrador. These tenure instruments require annual work obligations in order to maintain ownership. Failure to fulfill work obligations would result in loss of ownership interest. The following table sets out the Company's current petroleum and mineral interests.

Tenure Instrument	Project	Interest Ownership
Petroleum Permits		
Permit 96-105	Bay St. George, Western Newfoundland	2.0% gross overriding royalty (GORR)
Permit 03-106	Bay St. George, Western Newfoundland	2.0% GORR
Permit 03-107	Bay St. George, Western Newfoundland	2.0% GORR
Permit 03-102	Parsons Pond, Western Newfoundland	Relinquished
Permit 03-103	Parsons Pond, Western Newfoundland	Relinquished
Mineral Licences		
015834M	TL Nickel, Labrador	49% working interest
014138M	Kingurutik, Labrador	Relinquished
008838M	Bay St. George, Western Newfoundland	3.0% net production royalty (NPR)
006107M	Bay St. George, Western Newfoundland	3.0% NPR
010069M	Bay St. George, Western Newfoundland	3.0% NPR
017955M	Bay St. George, Western Newfoundland	3.0% NPR
017956M	Bay St. George, Western Newfoundland	3.0% NPR
018054M	Bay St. George, Western Newfoundland	3.0% NPR
018929M	Bay St. George, Western Newfoundland	3.0% NPR
019059M	Bay St. George, Western Newfoundland	3.0% NPR

019304M	Bay St. George, Western Newfoundland	3.0% NPR
019305M	Bay St. George, Western Newfoundland	3.0% NPR
020265M	Bay St. George, Western Newfoundland	3.0% NPR

OFF BALANCE SHEET ARRANGEMENTS

The Company has no material off-balance sheet arrangements.

TRANSACTIONS WITH RELATED PARTIES

During the period, the Company paid premises rent aggregating \$18,000 (2011: \$18,000) to a private company owned and controlled by the President and a director of the Company. As well, he received \$146,250 (2011: \$146,700) in management fees.

Directors' fees were paid during the period of \$14,000 (2011 - \$14,000). Included in accounts payable and accrued liabilities are management fees due to the President of \$1,550 (2011 - \$1,500).

These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties. Management is of the opinion that these transactions were undertaken under the same terms and conditions as transactions with non-related parties.

PROPOSED TRANSACTIONS

The Company through its normal course of business solicits partners for some of its exploration prospects, both petroleum and minerals.

CRITICAL ACCOUNTING ESTIMATES

Any critical accounting estimates are disclosed in the consolidated financial statements.

CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective, as per below:

IAS 27 Separate Financial Statements will replace the existing IAS 27 “Consolidated and Separate Financial Statements”. IAS 27 contains accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. IAS 27 requires an entity preparing separate financial statements to account for those investments at cost or in accordance with IFRS 9 Financial Instruments. IAS 27 is effective for annual periods beginning on or after January 1, 2013.

IAS 28 Investments in Associates and Joint Ventures was amended in 2011 and prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. IAS 28 is effective for annual periods beginning on or after January 1, 2013.

IFRS 9 Financial Instruments was issued in 2009 and will replace IAS 39 Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2015.

IFRS 10 Consolidated Financial Statements establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. IFRS 10 supersedes IAS 27 “Consolidated and Separate Financial Statements” and SIC-12 “Consolidation – Special Purpose Entities” and is effective for annual periods beginning on or after January 1, 2013.

IFRS 11 Joint Arrangements establishes principles for financial reporting by parties to a joint arrangement. IFRS 11 supersedes current IAS 31, Interests in Joint Ventures and SIC-13, Jointly Controlled Entities-Non – Monetary Contributions by Venturers and is effective for annual periods on or after January 1, 2013.

IFRS 12 Disclosure of Interests in Other Entities applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. IFRS 12 is effective for annual periods beginning on or after January 1, 2013.

IFRS 13 Fair Value Measurements defines fair value, sets out in a single IFRS framework for measuring fair value and requires disclosures about fair value measurements. IFRS 13 applies to IFRSs that require or permit fair value measurements or disclosures about fair value measurements (and measurements, such as fair value less costs to sell, based on fair value or disclosures about those measurements), except in specified circumstances. IFRS 13 is to be applied for annual periods beginning on or after January 1, 2013.

The Company is currently evaluating the impact of the above standards on its consolidated financial statements.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

The Company's assets include cash and cash equivalents. These cash equivalents include a bank account and a treasury account.

The Company currently holds 1,400,000 shares in Nortec, a public company pursuant to mineral property option agreements dated May 30, 2003 and July 30, 2008. The shares have been valued as an investment of \$98,000 on the balance sheet at September 30, 2012. These shares are all free trading. The Company may sell those shares at its discretion in context of the market value and prospects for Nortec.

The Company currently holds 1,796,437 shares in NWest and has recorded the shares at market of \$197,608 on the balance sheet at September 30, 2012. The Company may sell those free trading shares at its discretion in context of the market value and prospects for NWest.

The Company currently holds 150,000 shares in Commander Resources Ltd., a public company, pursuant to a mineral property letter agreement dated February 27, 2007. The shares have been valued as an investment of \$12,000 on the balance sheet at September 30, 2012. The Company may sell those shares at its discretion in context of the market value and prospects for Commander Resources Ltd.

Business Risks

The Company is a junior exploration company principally involved in mineral and oil and gas exploration which is an inherently high-risk activity. The business of exploring for, developing, acquiring, producing oil and natural gas and minerals is subject to many risks and uncertainties, several of which are beyond the control of the Company. These risks are operational, financial, legal and regulatory in nature.

Operational risks include unsuccessful exploration and development drilling activity, reservoir performance, safety and environmental concerns, access to cost effective contract services, escalating industry costs for contracted services and equipment, product marketing and hiring and retaining qualified employees.

The Company is subject to financial risk as exploration is capital intensive and the Company has no sources of funding other than equity financing and joint venture financing arrangements. Only the skills of management and staff in mineral and oil and gas exploration and exploration financing serve to mitigate these risks.

The Company is subject to a variety of regulatory risks that it does not control. Government and Securities regulations are monitored to ensure the Company continues to be in compliance.

The Company also mitigates many of the above risks by having diversified exploration projects at low cost to the Company and to attract JV partners to finance further exploration. The more projects that can be generated and the longer the Company can obtain financing the better its chances for achieving success. The Company has been in business for 16 years and has a solid

foundation technically, corporately and financially to go forward and be positioned for future success.

Financial Risk Factors

Other financial risk factors in which the Company is exposed to are outlined below:

Credit risk

The Company provides credit to its joint venture partners in the normal course of its operations. Management believes that the credit risk with respect to accounts receivable is immaterial. The credit risk on cash is limited because the counterparty is a chartered bank with a high credit rating. The Company does not expect any liquidity issues or credit losses on these amounts.

Liquidity risk

The Company believes it has sufficient liquidity to meet its current obligations as a result of securing additional funds through equity and partnering transactions. The Company manages its liquidity risk by continuously monitoring forecasts and actual cash flows.

Market Price Risk

The value of the Company's investments is exposed to fluctuations in value depending on a number of factors, including the quoted market price and the market value of the commodities that the companies may focus on. The Company does not utilize any derivative contracts to reduce this exposure.

Interest rate risk

The Company's cash balances are held in bank accounts or invested in short-term deposit certificates. The Company has no debt. The Company believes its interest rate risk is not significant.

Commodity price risk

The recoverability of the Company's petroleum and natural gas and mineral properties is partially related to the market price of oil and gas and base metals. The Company does not hedge this exposure to fluctuations in commodity prices. Commodity price risk from a production perspective is not applicable because the Company is not a producing entity. The Company's ability to continue with its exploration program is also indirectly subject to commodity prices.

SHARE CAPITAL

As of the date of this management discussion and analysis the Company has 57,526,129 voting common shares outstanding. The Company's share capital consists of an unlimited number of voting common shares and an unlimited number of preferred shares of which there are none outstanding.

As a result of the corporate reorganization in which certain mineral assets were transferred to Red Moon, the number of the Company's shares issuable upon exercise of the Company's outstanding stock options and warrants were increased and the exercise price per share of each such stock option and warrant were reduced. The term to expiry, conditions to and manner of exercising, vesting schedule, adjustment provisions, status under applicable laws and all other terms and conditions of the stock options and warrants remain unchanged. The resulting changes are set forth below.

At the end of the period, the Company had outstanding 2,667,761 options to purchase voting common shares consisting of the following:

Date Issued	Number	Exercise Price	Details
June 27, 2008	911,889	\$0.99	Employee & Directors' Options Expiry June 27, 2013
April 22, 2009	360,443	\$0.44	Director's Options, Expiry April 22, 2014
August 3, 2010	978,345	\$0.44	Director's Options, Expiry August 3, 2015
August 3, 2010	365,592	\$0.44	Employee Options, Expiry August 3, 2013
September 1, 2010	51,492	\$0.44	Employee Options, Expiry September 1, 2013

At the end of the period, the Company had 182,951 warrants exercisable into voting common shares consisting of the following:

Date Issued	Number	Exercise Price	Details
December 29, 2011	182,951	\$0.29	Expiry December 29, 2013

ADDITIONAL INFORMATION

All corporate disclosure documents are filed on www.sedar.com. Additional information regarding the Company's projects and activities are available at www.vulcanminerals.ca.

Notice of No Auditor Review of Interim Financial Statements

Under National Instrument 51-102, “Continuous Disclosure Obligations”, part 4 subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor. The Corporation’s external auditors have not performed a review of these financial statements.

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

1. NATURE OF OPERATIONS AND CONTINUATION OF THE BUSINESS

Vulcan Minerals Inc. (the "Company") is engaged in the evaluation, acquisition and exploration of mineral and petroleum and natural gas properties in Newfoundland and Labrador. The Company plans to ultimately develop the properties as joint ventures, bring them into production, option or lease properties to third parties, or sell the properties outright. The Company has not determined whether these properties contain reserves that are economically recoverable and the Company is considered to be in the exploration stage.

These financial statements have been prepared using accounting principles applicable to a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. However, adverse conditions exist to cast significant doubt on the Company's ability to continue as a going concern. The Company is in the process of exploring its mineral and petroleum and natural gas properties and has not yet determined whether these properties contain economically recoverable reserves. The success of the Company and the recoverability of exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain financing to fund and complete the development of such reserves, the ability of the Company to satisfy obligations as they come due and upon future profitable production from the properties or proceeds from disposition. The amounts shown as mineral and petroleum and natural gas exploration and evaluation costs represent net costs to date less any write-offs and do not necessarily represent present or future values. At September 30, 2012, the Company had an accumulated deficit of \$11,316,535 (December 31, 2011 - \$10,475,022).

If the going concern assumption were not appropriate for these financial statements, adjustments would be necessary to the carrying values of assets and liabilities, the reported loss and balance sheet classifications used.

The Company is a publicly traded company, incorporated under the laws of the Province of Alberta, Canada. Its registered address is 333 Duckworth Street, St. John's, NL A1C 1G9.

These interim condensed consolidated financial statements were approved and authorized for issuance by the Board of Directors on November 22, 2012.

2. BASIS OF PRESENTATION

These interim condensed consolidated financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, Interim Financial Reporting. The interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2011, which have been prepared in accordance with IFRS as issued by the IASB.

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

2. BASIS OF PRESENTATION (continued)

The accounting principles and practices as applied in these interim condensed consolidated financial statements for the period ended June 30, 2012 remain unchanged from the year ended December 31, 2011. These policies have been retrospectively and consistently applied.

These interim condensed consolidated financial statements have been prepared on a historical cost basis, except for derivative financial instruments and share-based payment transactions which are measured at fair value.

In these interim condensed consolidated financial statements, unless otherwise indicated, all dollar amounts are expressed in Canadian dollars which is also the Company's functional currency.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements include the accounts of the Company and those of its wholly-owned subsidiaries, which are inactive as well as Red Moon Potash Inc., a subsidiary controlled by the Company in which the Company has 57.75% ownership. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All significant intercompany transactions and balances have been eliminated.

Non-controlling interests in the net assets of Red Moon Potash Inc. are identified separately from the Company's equity. The non-controlling interest consists of the non-controlling interest's portion of net assets, income (loss), and other comprehensive income (loss).

Interests in jointly controlled assets are accounted for using the proportionate consolidation method, whereby the Company's proportionate share of revenue, expense, assets and liabilities are included in the accounts.

Other accounting policies

All other significant accounting policies remain unchanged from the year ended December 31, 2011. These interim condensed consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements and accompanying notes disclosed in the Company's report for the year ended December 31, 2011. Except as above, these interim condensed consolidated financial statements have been prepared following the same accounting policies and methods of computation as the year end consolidated financial statements for the Company for the year ended December 31, 2011 as described in note 3 of the December 31, 2011 consolidated financial statements.

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

4. INVESTMENTS

	30-Sep-12	31-Dec-11
	\$	\$
Investments	307,608	476,430

Investments, classified as available for sale, consist of:

Shares in a public company received as consideration for option payments on mineral claims with a cost of \$123,600. At September 30, 2012, the market value of the shares is \$98,000 (December 31, 2011 - \$168,000).

Shares in a public company in which the Company transferred its interest in an offshore exploration license with a cost of \$497,223. At September 30, 2012, the market value of the shares is \$197,608 (December 31, 2011 - \$287,430).

Shares in a public company received as consideration for option payments on mineral claims with an original value of \$93,000. At September 30, 2012, the market value of the shares is \$12,000 (December 31, 2011 - \$21,000).

5. MINERAL EXPLORATION AND EVALUATION ASSETS

The Company has 15 mineral licenses (13 of which are held by Red Moon Potash Inc.) (December 31, 2011 - 14), which consists of 1,768 claims (December 31, 2011 - 1,900), which are active and in good standing with the Department of Natural Resources in the Province of Newfoundland and Labrador. All of these licenses are in the exploration and evaluation stage. A summary of the costs of these licenses is as below.

	30-Sep-12			31-Dec-11			
	Balance, Beginning of Year	Additions	Dispositions	Balance, End of Period	Balance, Beginning of Year	Additions	Balance, End of Year
	\$	\$	\$	\$	\$	\$	\$
Property acquisition costs	139,561	-	-	139,561	129,161	10,400	139,561

	437,868	13,931	-	451,799	83,356	354,512	437,868

\$1,781 (December 31, 2011 - \$28,792) of the current year additions related to share-based compensation costs capitalized to mineral exploration and evaluation.

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

6. PETROLEUM AND NATURAL GAS EXPLORATION AND EVALUATION ASSETS

The Company holds minority working interests in two exploration permits in western Newfoundland as well as a database of geological and geophysical data. A summary of the costs of these assets is as below.

	30-Sep-12			31-Dec-11		
	Balance, Beginning of Year	Additions	Balance, End of Period	Balance, Beginning of Year	Additions	Balance, End of Year
	\$	\$	\$	\$	\$	\$
Petroleum and natural gas costs	14,274,035	69,397	14,343,432	12,653,159	1,620,876	14,274,035
Cost of abandoned properties	(4,481,839)	(5,560,358)	(10,042,197)	(3,697,441)	(784,398)	(4,481,839)
	9,792,196	(5,490,961)	4,301,235	8,955,718	836,478	9,792,196

Amounts not subject to depreciation are \$4,301,235 (December 31, 2011 - \$9,792,196). There is no depreciation recorded on these properties since all properties are unproven properties. In the current year, \$7,769 (December 31, 2011 - \$96,433) of additions related to share-based compensation costs were capitalized to petroleum and natural gas exploration and evaluation.

7. EQUIPMENT

	30-Sep-12				31-Dec-11			
	Drilling Rig	Furniture & Fixtures	Computer Equipment	TOTALS	Drilling Rig	Furniture & Fixtures	Computer Equipment	TOTALS
	\$	\$	\$	\$	\$	\$	\$	\$
Opening balance	798,368	11,377	47,650	857,395	638,406	11,377	44,471	694,254
Additions	-	-	1,790	1,790	159,962	-	3,179	163,141
Opening depreciation	(597,685)	(8,148)	(31,443)	(637,276)	(545,955)	(7,341)	(25,179)	(578,475)
Adjustments to depreciation	(45,154)	(484)	(3,848)	(49,486)	(51,730)	(807)	(6,264)	(58,801)
Closing balance	155,529	2,745	14,149	172,423	200,683	3,229	16,207	220,119

As at September 30, 2012, \$253,354 of accumulated depreciation of the drilling rig (December 31, 2011 - \$253,354) has been capitalized to petroleum and natural gas exploration and evaluation; \$45,154 has been expensed for the period ended September 30, 2012 (December 31, 2011 - \$51,730).

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

8. ASSET RETIREMENT OBLIGATIONS

Upon termination of the Company's petroleum and natural gas sites, the Company is required to satisfy certain asset retirement obligations including the removal of any equipment and the restoration of the land and premises to their original condition.

The Company estimates the total undiscounted cash flows required to settle its asset retirement obligations at September 30, 2012 is \$10,195 (December 31, 2011 - \$68,195) which will be incurred between 2012 and 2016 and is adjusted based on the risk-adjusted discount rate of 5% (December 31, 2011 - 5%) to calculate the fair value of the asset retirement obligations.

A reconciliation of the asset retirement obligation is provided below:

	30-Sep-12	31-Dec-11
	\$	\$
Balance, beginning of year	63,208	63,449
Liabilities incurred	-	(1,306)
Liabilities settled and/or changes in estimated cash flows	(55,382)	-
Accretion expense	3,068	1,065
Balance, end of period	10,894	63,208

9. INCOME TAXES

a) *Deferred income taxes*

The components of the deferred income tax liability are as follows:

	30-Sep-12	31-Dec-11
	\$	\$
Temporary differences related to petroleum, natural gas and mineral exploration and evaluation	750,444	1,724,634
Tax effect of unrealized losses on available-for- sale financial assets	(52,940)	(28,461)
Share issuance costs	(72,006)	(102,923)
Non-capital loss carryforwards	(622,339)	(719,104)
Asset retirement obligations	(3,159)	(18,330)
Recognized deferred tax (asset) liability	-	855,816

b) *Income tax rates*

Other tax expense of \$Nil (December 31, 2011 - \$6,027) consists of Part XII.6 tax related to the renunciation of flow-through shares.

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

9. INCOME TAXES (continued)

Income taxes differ from that which would be expected from applying the combined effective Canadian federal and provincial income tax rates of 29% (2011 – 30.5%) to net (loss) earnings before income taxes as follows:

	30-Sep-12	31-Dec-11
	\$	\$
Expected income tax recovery	(479,283)	(548,243)
Share-based compensation costs	17,476	55,809
Flow-through shares renounced	-	251,988
Effect of changes in income tax rates	23,796	24,128
Effect of changes in temporary differences and other items	(393,327)	148,389
Deferred income taxes recovery	(831,338)	(67,929)

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

10. SHARE CAPITAL (continued)

b) Issued and outstanding (continued)

In August 2012, the Company completed a corporate re-organization in which certain mineral assets were spun out into a subsidiary of the Company, Red Moon Potash Inc. ("Red Moon"). As a result of this spin-out, the Company received 20,499,999 common shares of Red Moon for the mineral asset of which 15,000,000 shares were returned to the shareholders of the Company by way of a return of capital. The \$70 adjustment to share capital relates to the revaluation of warrants. The \$493,967 recorded relates to the non-controlling interest in Red Moon as a result of this corporate reorganization (i.e., the 15,000,000 common shares distributed to Vulcan shareholders). The Company currently holds 20,500,000 shares in Red Moon, being 57.75% of the issued and outstanding shares of Red Moon.

Pursuant to a flow-through private placement dated December 29, 2011, the Company issued 350,000 units at \$0.20 for aggregate proceeds of \$70,000 (less \$5,250 attributed to the fair value of warrants and \$17,500 as the variance between the issuance price and the fair market value). Each unit consisted of one common share (flow-through) and one-half of a common share purchase warrant. Each whole common share purchase warrant entitles the holder to purchase one common share of the Company at a price of \$0.30 per share until December 29, 2013. Share issuance costs were \$865 net of tax of \$360.

c) Warrants

A summary of the status of the Company's common share purchase warrants and agent's warrants are as follows:

	30-Sep-12		31-Dec-11	
	Number of Warrants	Weighted- Average Exercise Price	Number of Warrants	Weighted- Average Exercise Price
		\$		\$
Outstanding, beginning of year	175,000	0.30	2,102,364	0.77
Issued	-		175,000	0.30

Adjustment as a result of corporate reorganization	7,951	(0.01)	-	
Outstanding, end of period	182,951	0.29	175,000	0.30

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

10. SHARE CAPITAL (continued)

c) Warrants (continued)

	30-Sep-12	31-Dec-11
	\$	\$
Balance, beginning of year	424,426	419,176
Fair value of warrants granted	-	5,250
Adjustment as a result of corporate reorganization	70	-
Balance, end of period	424,496	424,426

At December 31, 2011, \$419,176 of the \$424,426 relates to warrants which expired during 2011.

(d) Share-based payment reserve

A summary of share-based payment reserve is as follows:

	30-Sep-12	31-Dec-11
	\$	\$
Balance, beginning of year	2,378,069	2,069,864
Share-based compensation	68,999	308,205
Adjustment as a result of corporate reorganization	812	-
Balance, end of period	2,447,880	2,378,069

11. SHARE-BASED COMPENSATION

a) Stock options

The Company has a stock option plan under which directors, officers, management, consultants and employees of the Company and its subsidiaries are eligible to receive stock options. The aggregate number of shares to be issued upon exercise of all options granted under the plan shall not exceed 10% of the issued shares of the Company at the time of granting the options. The maximum number of common shares optioned to any one optionee shall not exceed 5% of outstanding common shares of the Company. Options granted under the plan generally have a term of five years but may not exceed five years and vest at terms to be determined by the directors at the time of grant. The exercise price of each option shall be determined by the directors at the time of grant but shall not be less than the price permitted by the policy or policies of the stock exchange(s) on which the Company's common shares are then listed.

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

11. SHARE-BASED COMPENSATION (continued)

Granted but not vested	-	-	(307,296)	0.45
Outstanding and exercisable, end of period	2,667,761	0.63	3,822,704	0.62

During the period ended September 30, 2012, no options were exercised (December 31, 2011 – Nil). During the period ended September 30, 2012, share-based payment reserves of \$Nil (December 31, 2011 - \$Nil) has been transferred to share capital upon the exercise of stock options.

The weighted average remaining contractual life of outstanding options is 1.64 years (December 31, 2011 – 1.78 years).

(b) Fair value assumptions

The weighted-average fair value of stock options vested during the period ended September 30, 2012 was estimated on the dates of grant to be \$0.25 (December 31, 2011 - \$0.26) using the Black-Scholes option pricing model with the following weighted-average assumptions:

	30-Sep-12	31-Dec-11
Expected life (years)	4.33	4.20
Risk-free interest rate (%)	1.87	1.82
Expected volatility (%)	84	85

During the period ended September 30, 2012, compensation costs of \$60,261 (December 31, 2011 - \$182,980) have been expensed, \$1,781 (December 31, 2011 - \$28,792) have been capitalized to mineral exploration and evaluation, and \$7,769 (December 31, 2011 - \$96,433) has been capitalized to petroleum and natural gas exploration and evaluation, resulting in the recognition of \$69,811 (December 31, 2011 - \$308,205) in the share-based payment reserve.

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

12. SUPPLEMENTAL CASH FLOW INFORMATION

	30-Sep-12	31-Dec-11
	\$	\$
Shares-based payment reserve recognized upon the issuance of stock options recorded as:		
Share-based compensation	60,261	182,980
Addition to mineral exploration and evaluation	1,781	28,792
Addition to petroleum and natural gas exploration and evaluation	7,769	96,433
Non-cash operating, investing, and financing activities	69,811	308,205
Changes in asset retirement obligations		
Accretion expense	3,068	1,065
Decrease in petroleum and natural gas exploration and evaluation	(55,382)	(1,306)
Decrease of asset retirement obligations	(52,314)	(241)

13. RELATED PARTY TRANSACTIONS

	30-Sep-12	31-Dec-11
	\$	\$
Items included in general and administrative expenses:		
Rent paid to a corporation which is controlled by the President of the Company	18,000	24,000
Management fees paid to the President of the Company	146,250	195,500
Directors fees paid (\$3,500 to each of four directors)	14,000	14,000
Items included in accounts payable and accrued liabilities:		
Management fees payable	1,550	4,800

These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties. Management is of the opinion that these transactions were undertaken under the same terms and conditions as transactions with non-related parties. \$47,356 was expensed (December 31, 2011 - \$137,518) and \$2,547 (December 31, 2011 - \$57,422) was capitalized to petroleum and mineral exploration costs for the period ended September 30, 2012 for vested share-based options related to key management personnel (President and Directors).

VULCAN MINERALS INC.

Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2012 and 2011

14. CONTINGENT LIABILITY

In 2011, the Company was served with a statement of claim by Geophysical Services Incorporated wherein it is claimed that the Company, as a co-defendant with Investcan Energy Corporation, has committed a copyright infringement. The claim relates to an allegation that accessing offshore Labrador seismic data, which is released to the public by the Canada Newfoundland and Labrador Offshore Petroleum Board (CNLOPB) after the relevant statutory privilege-confidentiality period, is a breach of copyright. The Company is of the opinion that this claim is without basis and vexatious. The Company is fully defending its interests.

15. SUBSEQUENT EVENTS

In October, 2012, the Company executed agreements with Nalcor Energy – Oil and Gas Inc. (“Nalcor”) to relinquish its working interests in the Parson Pond area in western Newfoundland to Nalcor, pending regulatory approvals.
