1. NATURE OF OPERATIONS AND CORPORATE INFORMATION

Vulcan Minerals Inc. is engaged in the evaluation, acquisition and exploration of mineral and petroleum and natural gas properties in Newfoundland and Labrador and Alberta. The Company plans to ultimately develop the properties as joint ventures, bring them into production, option or lease properties to third parties, or sell the properties outright. The Company has not determined whether these properties contain reserves that are economically recoverable and the Company is considered to be in the exploration stage.

The Company is a publicly traded company, incorporated under the laws of the Province of Alberta, Canada. Its head office address is 333 Duckworth Street, St. John's, NL A1C 1G9.

2. BASIS OF PRESENTATION

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The accounting policies used in preparing these unaudited interim condensed consolidated financial statements are consistent with those used in the preparation of the Company's annual financial statements. These unaudited interim condensed consolidated financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2014.

These consolidated financial statements have been prepared on an historical cost basis, except for investments which are measured at fair value.

These consolidated financial statements were approved and authorized for issuance by the Board of Directors on August 27, 2015.

Basis of consolidation

The consolidated financial statements include the accounts of the Company and the entity controlled by the Company (subsidiary). The Company's subsidiary is Red Moon Potash Inc. in which the Company has a 65% interest. Control is achieved by having each of: power over the investee via existing rights that give the company the current ability to direct the relevant activities of the investee; exposure, or rights, to variable returns from involvement with the investee; and the ability for the company to use its power over the investee to affect the amount of the company's returns. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All significant intercompany transactions and balances have been eliminated.

Non-controlling interest in the net assets of Red Moon Potash Inc. are identified separately from the Company's equity. The non-controlling interest consists of the non-controlling interest's portion of net assets, income (loss), and other comprehensive income (loss).

The Company is reviewing the standards and amendments, to determine the potential impact, if any, on its financial statements.

The Company is of the opinion that this claim is without basis or merit and no amounts have been recorded in the Company's accounts related to this claim. The Company is fully defending its interests.
- b) The Court in Alberta has granted leave to Geophysical Service Incorporated (GSI) to add the Company as a co-defendant in the ongoing action GSI has with NWest Energy Corp. regarding an alleged breach of an agreement between those parties.
