1. NATURE OF OPERATIONS

Vulcan Minerals Inc. is engaged in the evaluation, acquisition and exploration of mineral properties in Newfoundland and Labrador. The Company plans to ultimately develop the properties as joint ventures, bring them into production, option or lease properties to third parties, or sell the properties outright. The Company is in the exploration stage on most of its projects. The Company is a publicly traded company, incorporated under the laws of the Province of Alberta, Canada. Its registered address is 333 Duckworth Street, St. John's, NL A1C 1G9.

2. BASIS OF PRESENTATION

The Company prepares its condensed consolidated financial statements with Canadian generally accepted accounting principles ("GAAP") as set out in the Canadian Professional Accountants of Canada Handbook – Accounting – Part I ("CPA Canada Handbook") which incorporates International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed consolidated financial statements have been prepared on an historical cost basis, except for investments which are measured at fair value.

In addition to the Company, the consolidated financial statements include all subsidiaries. Subsidiaries are all corporations, over which the Company is able, directly or indirectly, to control financial and operating policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. Intercompany transactions and balances are eliminated upon consolidation. They are deconsolidated from the date that control by the Company ceases. Any retained interest is measured to its fair value with the change in carrying amount recognized in income or loss. The fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or joint venture.

As of March 31, 2023 and 2022, the subsidiaries (both inactive) of the Company are as follows:

Subsidiaries	2023	2022
Devonian Resources Inc.	100%	100%
London Resources Inc.	100%	100%

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The accounting policies used in preparing these unaudited interim condensed consolidated financial statements are consistent with those used in the preparation of the Company's annual financial statements.

A summary of the Company's significant accounting policies under IFRS is presented in Note 5 to the year-end financial statements, December 31, 2022.

These condensed consolidated financial statements were approved and authorized for issuance by the Board of Directors on May 30, 2023.

3. NEW OR AMENDMENTS TO ACCOUNTING STANDARDS NOT YET ADOPTED

For the period ended March 31, 2023, there have been no accounting pronouncements by the IASB that would have a material impact on the Company's financial results or position.

Amendments to IAS 1, Presentation of Financial Statements, is effective for years beginning with January 1, 2023. The amendments clarify how an entity classifies debt and other financial liabilities as current or non-current in particular circumstances. There is no material impact on its condensed consolidated financial statements during 2023.

Current year additions to mineral exploration costs include share-based compensation of \$nil (December 31, 2022 – \$17,434).

In February 2021, the Company entered into an option agreement with Sassy Gold Corp. (previously Sassy Resources Corporation) ("Sassy") in relation to the Company's Gander Belt Gold mineral property (624 claims). Sassy has an option to earn a 100% interest in the property over a four-year period by incurring exploration expenditures of \$2,000,000 (\$200,000 in year 2021) and by making option payments of 2,500,000 common shares, and \$400,000 cash (\$100,000 upon signing). As at March 31, 2023, 1,000,000 common shares

of Sassy and 772,408 common shares of Gander Gold (December 31, 2022 - 1,000,000 common shares of Sassy and 386,194 shares of Gander Gold) having a market value of \$924,291 (December 31, 2022 - \$842,892) at the time of their issuance and \$200,000 cash (December 31, 2022 - \$150,000) have been received. Security deposits of \$28,950 paid on the 624 claims have been reimbursed to the Company. As of March 31, 2023, \$122,626 has been recorded as cost recoveries to the Gander properties and \$131,399 (December 31, 2022 - \$192,892) recorded as income during period. After Sassy earns its 100% interest, the Company can retain a 3% net smelter royalty (NSR) covering the 624 claims. Sassy has the right to repurchase one-half of that NSR (1.5%) for \$2,000,000 in cash and 500,000 common shares within one year following delivery to Vulcan of a Feasibility Report on any deposit advanced on the properties. Subsequent to the date of this agreement, Sassy assigned the option to Gander Gold Corporation ("Gander Gold"). The first anniversary and subsequent option payments will now be paid by Gander Gold including the issuance of Gander Gold shares.

On September 20, 2021, the Company entered into an option agreement with Fjordland Exploration Inc. ("Fjordland") in relation to the Company's South Voisey's Bay mineral licenses (30 claims). Fjordland has an option to earn a 100% interest in the property over a three-year period by incurring work commitment of \$250,000 (\$250,000 in year 2024) and by making option payments of 1,350,000 common shares, and \$70,000 cash (\$25,000 upon signing). As at March 31, 2023, 850,000 common shares (December 31, 2022 – 850,000) having a market value of \$67,500 (December 31, 2022 - \$67,500) at the time of their issuance and \$35,000 (December 31, 2022 - \$35,000) has been received. As of March 31, 2023, \$12,266 has been recorded as cost recoveries to the South Voisey's Bay properties and \$nil (December 31, 2022 - \$17,500) recorded as income during the year. After Fjordland earns its 100% interest, the Company can retain a 2% net smelter returns royalty (NSR) covering the 30 claims. Fjordland has the right to buy down 50% of the NSR (1%) at any time within one year following the start of commercial production on the Property in consideration for the payment of \$2,000,000 in cash payable to the Company.

On May 9, 2022 the Company entered into a Purchase and Sale Agreement whereby the Company sold 12 mineral licences (2,440 claims) to Rocky Island Gold Corp ("Rocky Island"). Rocky Island paid \$250,000 cash and issued 3,000,000 common shares in the capital of Sassy Gold Corp. ("Sassy"). The Company received a one percent (1%) net smelter royalty covering the claims. The common shares had a market value of \$960,000 at the time of their issuance and \$250,000 cash has been received. A gain on the sale of mineral property of \$1,051,400 has been recorded as income during 2022.

13. CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard its accumulated capital in order to maintain its ability to continue as a going concern, to fund its exploration activities and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of capital and equity comprised of share capital, contributed surplus, and deficit.

The Company manages its capital structure and adjusts it in light of economic conditions. The Company will balance its overall capital structure through new share issuances or by undertaking other activities as deemed appropriate under the specific circumstances.

To maintain or adjust the capital structure, the Company may issue new equity if available on favorable terms, option its exploration and evaluation assets for cash and/or expenditure commitments from optionees and enter into joint venture arrangements or dispose of its exploration and evaluation assets.

The Company is not subject to externally imposed capital requirements.

14. FINANCIAL INSTRUMENTS

Fair Values:

Financial instruments recorded at fair value on the balance sheet are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 – valuation based on quoted prices (unadjusted) observed in active markets for identical assets and liabilities;

Level 2 – valuation techniques based on inputs that are quoted process of similar instruments in active markets; inputs other than quoted process used in a valuation model that are observable for that instrument; and inputs that are derived principally from or corroborated by observable market data by correlation or other means; and

Level 3 – valuation techniques with significant unobservable market inputs.

The carrying amount of cash and cash equivalents and accounts payable and accrued liabilities, approximate their fair value due to their short-term nature.

The recognized investments (Note 4) and the fair value of the Atlas Salt shares disclosed in Note 5 are Level 1 measurements.

Financial Risk Management:

The Company has exposure to credit risk, liquidity risk, market risk and commodity price risk. The source of risk exposure and how each is managed is outlined below:

Credit Risk:

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligation. The Company is exposed to credit risk on its cash and accounts receivable. The credit risk on cash is limited because the counterparty is a chartered bank with a high credit rating. The Company assesses its credit risk with respect to cash and accounts receivable as not significant.

Liquidity Risk:

The Company's approach to managing liquidity risk is to ensure it will have sufficient liquidity to meet liabilities when due. To the extent that the Company does not believe it has sufficient liquidity to meet these obligations, management will consider securing additional funds through debt or equity transactions. The Company manages its liquidity risk by continuously monitoring forecast and actual cash flow from operations. These funds are unrestricted and are intended to be used as working capital and to increase the Company's ability to fund future exploration projects. As of March 31, 2023 the Company had a cash balance of \$6,134,585 and a positive working capital of \$6,132,355.

Accounts payable and accrued liabilities at March 31, 2023 in the amount of \$124,395 (December 31, 2022 - \$137,981) are current and due within thirty days.

Market Risk:

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates, and commodity prices will affect the Company's net loss or the value of its financial instruments.

Commodity Price Risk:

The recoverability of the Company's mineral exploration and evaluation assets is partially related to the market price of oil and gas and base metals. The Company does not hedge this exposure to fluctuations in commodity prices. The Company's ability to continue with its exploration programs is also indirectly subject to commodity prices.

15. CONTINGENCIES

The Company has been added as a co-defendant in an ongoing legal action Geophysical Service Incorporated (GSI) has with NWest Energy Corp. (now Ceylon Graphite Corp. by way of name change) regarding an alleged breach of an agreement between those parties. GSI has submitted a Statement of Claim and the Company has filed a Statement of Defence. The Company believes the claims against it are without basis or merit and no amounts have been recorded in the Company's accounts related to this claim. The Company is fully defending its interest.
