VULCAN MINERALS INC.**Notes to the Condensed Consolidated Financial Statements**June 30, 2024

1. NATURE OF OPERATIONS

Vulcan Minerals Inc. is engaged in the evaluation, acquisition and exploration of mineral properties in Newfoundland and Labrador. The Company plans to ultimately develop the properties as joint ventures, bring them into production, option or lease properties to third parties, or sell the properties outright. The Company is in the exploration stage on most of its projects. The Company is a publicly traded company, incorporated under the laws of the Province of Alberta, Canada. Its registered address is 333 Duckworth Street, St. John's, NL A1C 1G9.

2. BASIS OF PRESENTATION

The Company prepares its condensed consolidated financial statements with Canadian generally accepted accounting principles ("GAAP") as set out in the Canadian Professional Accountants of Canada Handbook – Accounting – Part I ("CPA Canada Handbook") which incorporates International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed consolidated financial statements have been prepared on an historical cost basis, except for investments which are measured at fair value and investment in associates which is measured using the equity method.

In addition to the Company, the condensed consolidated financial statements include all subsidiaries. Subsidiaries are all corporations, over which the Company is able, directly or indirectly, to control financial and operating policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. Intercompany transactions and balances are eliminated upon consolidation. They are deconsolidated from the date that control by the Company ceases. Any retained interest is measured to its fair value with the change in carrying amount recognized in income or loss. The fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or joint venture. The Company has two subsidiaries which are both inactive.

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The accounting policies used in preparing these unaudited interim condensed consolidated financial statements are consistent with those used in the preparation of the Company's annual financial statements. A summary of the Company's material accounting policies under IFRS is presented in Note 4 to the year-end financial statements, December 31, 2023.

These condensed consolidated financial statements were approved and authorized for issuance by the Board of Directors on August 23, 2024.

VULCAN MINERALS INC.**Notes to the Condensed Consolidated Financial Statements****June 30, 2024**

3. NEW AND AMENDED IFRS STANDARDS AND INTERPRETATIONS

For the period ended June 30, 2024, there have been no new or amended accounting pronouncements by the IASB that would have a material impact on the Company's financial results or position.

VULCAN MINERALS INC.**Notes to the Condensed Consolidated Financial Statements****June 30, 2024**

to Gander Gold Corporation ("Gander Gold"). The first anniversary and subsequent option payments were paid by Gander Gold including the issuance of Gander Gold shares. Sassy has an option to earn a 100% interest in the property over a four-year period by incurring exploration expenditures of \$2,000,000 and by making option payments of 2,500,000 (2021 - 1,000,000, 2022 - 300,000, 2023 - 300,000, 2024 - 400,000, 2025 - 500,000) common shares, and \$400,000 cash (2021 - \$100,000, 2022 - \$50,000, 2023 - \$50,000, 2024 - \$100,000, 2025 - \$100,000). On April 18, 2024, the Company and Gander Gold amended the 2024 anniversary payment to be 1,000,000 shares of Gander Gold instead of 400,000 common shares and \$100,000. All other terms of the original agreement remain the same.

As at June 30, 2024, 1,000,000 common shares of Sassy and 1,772,408 common shares of Gander Gold (December 31, 2023 - 1,000,000 common shares of Sassy and 772,408 shares of Gander Gold) having a market value of \$999,291 (December 31, 2023 - \$924,291) at the time of their issuance and \$200,000 cash (December 31, 2023 - \$200,000) have been received. Security deposits of \$28,950 paid on the claims have been reimbursed to the Company. As of June 30, 2024, \$130,614 (December 31, 2023 - \$122,626) has been recorded as cost recoveries to the Gander properties and \$92,963 (June 30, 2023 - \$131,399) recorded as income during period. After Sassy earns its 100% interest, the Company can retain a 3% net smelter royalty (NSR) covering the claims. Sassy has the right to repurchase one-half of that NSR (1.5%) for \$2,000,000 in cash and 500,000 common shares within one year following delivery to Vulcan of a Feasibility Report on any deposit advanced on the properties.

On May 9, 2022 the Company entered into a Purchase and Sale Agreement whereby the Company sold 12 mineral licences (2,440 claims) to Rocky Island Gold Corp ("Rocky Island"). Rocky Island paid \$250,000 cash and issued 3,000,000 common shares in the capital of Sassy Gold Corp. ("Sassy"). The Company received a one percent (1%) net smelter royalty covering the claims. The common shares had a market value of \$960,000 at the time of their issuance and \$250,000 cash has been received.

non-interest bearing until January 1, 2023. In the event there was a loan balance outstanding on January 1, 2023, the loan will be renewed for a 3-year term with a fixed annual rate of interest of 5%. In January 2022, the Government of Canada amended the CEBA program which delayed the required repayment date to December 31, 2023. This repayment date was extended to January 18, 2024 in September 2023. This loan was repaid in January 2024.

13. CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard its accumulated capital in order to maintain its ability to continue as a going concern, to fund its exploration activities and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of capital and equity comprised of share capital, contributed surplus, and deficit.

The Company manages its capital structure and adjusts it in light of economic conditions. The Company will balance its overall capital structure through new share issuances or by undertaking other activities as deemed appropriate under the specific circumstances.

To maintain or adjust the capital structure, the Company may issue new equity if available on favorable terms, option its exploration and evaluation assets for cash and/or expenditure commitments from optionees and enter into joint venture arrangements or dispose of its exploration and evaluation assets.

The Company is not subject to externally imposed capital requirements.

14. FINANCIAL INSTRUMENTS

Fair Values:

Financial instruments recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 – valuation based on quoted prices (unadjusted) observed in active markets for identical assets and liabilities;

Level 2 – valuation techniques based on inputs that are quoted process of similar instruments in active markets; inputs other than quoted process used in a valuation model that are observable for that instrument; and inputs that are derived principally from or corroborated by observable market data by correlation or other means; and

Level 3 – valuation techniques with significant unobservable market inputs.

The carrying amount of cash and cash equivalents, guaranteed investment certificate, accounts receivable and accounts payable and accrued liabilities, approximate their fair value due to their short-term nature.

The recognized investments (Note 4) and the fair value of the Atlas Salt shares disclosed in Note 5 are Level 1 measurements.

Financial Risk Management:

The Company has exposure to credit risk, liquidity risk, market risk and commodity price risk. The source of risk exposure and how each is managed is outlined below:

Credit Risk:

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligation. The Company is exposed to credit risk on its cash and cash equivalents, guaranteed investment certificate, and accounts receivable. The credit risk on cash and cash equivalents and guaranteed investment certificate is limited because the counterparty is a chartered bank with a high credit rating. The Company assesses its credit risk with respect to cash and cash equivalents, guaranteed investment certificate, and accounts receivable as not significant.

Liquidity Risk:

The Company's approach to managing liquidity risk is to ensure it will have sufficient liquidity to meet liabilities when due. To the extent that the Company does not believe it has sufficient liquidity to meet these obligations, management will consider securing additional funds through debt or equity transactions. The Company manages its liquidity risk by continuously monitoring forecast and actual cash flow from operations. These funds are unrestricted and are intended to be used as working capital and to increase the Company's ability to fund future exploration

projects. As of June 30, 2024 the Company had a cash balance of \$4,193,529 (December 31, 2023 - \$4,453,493), guaranteed investment certificate balance of \$2,021,030 (December 31, 2023 - \$2,013,485) and a positive working capital of \$6,211,119 (December 31, 2023 - \$6,364,234).

Accounts payable and accrued liabilities at June 30, 2024 is \$66,991 (December 31, 2023 - \$196,617).

Market Risk:

Market risk relates to changes in economic conditions, changes in market prices, interest rates, foreign exchange rates, and commodity prices which will affect the Company's net loss or the value of its financial instruments.

Commodity Price Risk:

The value of the Company's exploration and evaluation assets is partially related to the market price of metals and minerals. The Company does not hedge this exposure to fluctuations in commodity prices. The Company's ability to continue with its exploration programs is also indirectly subject to commodity prices.

15. CONTINGENCIES

The Company has been added as a co-defendant in an ongoing legal action Geophysical Service Incorporated (GSI) has with NWest Energy Corp. (now Ceylon Graphite Corp. by way of name change) regarding an alleged breach of an agreement between those parties. GSI has submitted a Statement of Claim and the Company has filed a Statement of Defence. The Company believes the claims against it are without basis or merit and no amounts have been recorded in the Company's accounts related to this claim. The Company is fully defending its interest.
